Product Update Notification
YZ300P Message Editing Software

Press Release

Fireye has updated its YZ300P messaging software so it will operate on a wider series of Microsoft operating systems.
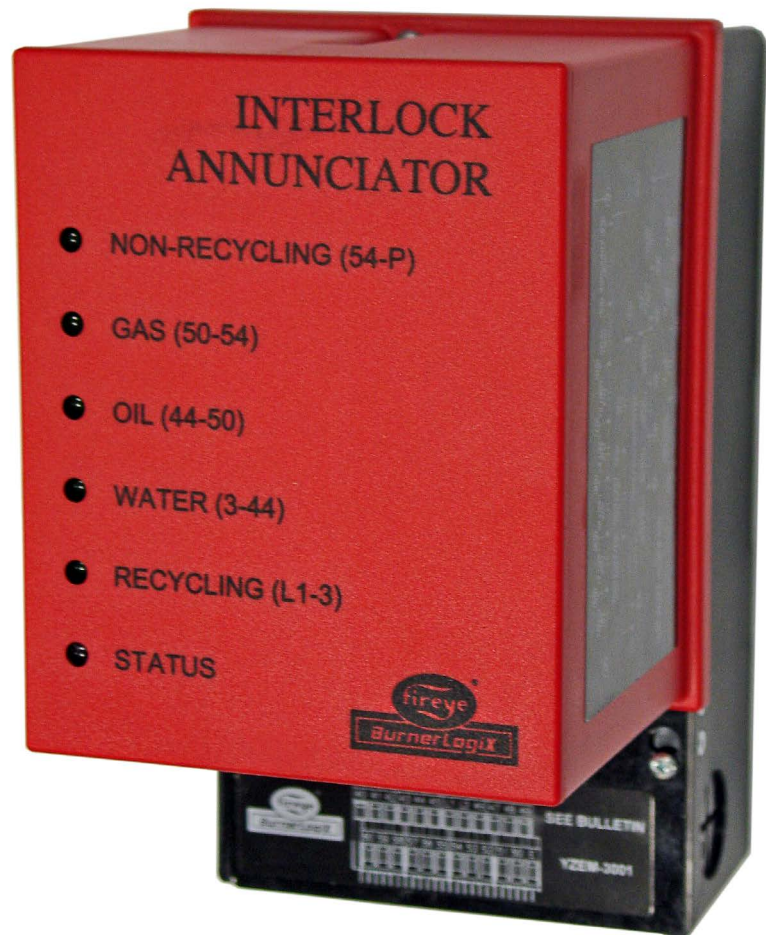

This new release spans from Windows 10 through the latest Windows 11.

The latest software is free of charge for users of the YZ300 Annunciator and it can be downloaded from the Fireye website or by using the QR Code below. An updated manual has also been included in this release and current users will notice and appreciate a new more intuitive interface.

Hardware part numbers all remain the same.

Features

- CUSTOMIZE MESSAGES
- WINDOWS 11 COMPATIBLE
- UPDATED MANUALS
- UPDATED INTERFACE
- AVAILABLE FREE
